

Almond Joy Blended Coffee

Ready in less than 5 minutes

Serves 1 person

© 2019 | [Insert Real Food Here](#)

Ingredients

- 12 ounces hot coffee
- 1/4 cup [full-fat coconut milk](#)
- 1 tablespoon [collagen peptides](#)
- 2 teaspoons [raw cacao](#)
- 1 teaspoon [coconut oil](#)
- 1/4 teaspoon [almond extract](#)
- Pinch of sea salt (optional)

Method

1. **Combine all ingredients** in a blender or blender cup.
2. **Blend** until well combined.

Notes

This blended coffee is best enjoyed hot! That said, if you'd prefer it iced, I'd suggest allowing it to cool, then refrigerating for an hour or so before pouring over ice - just so it doesn't get watered down. You may need to quickly re-blend if any separation has occurred during chilling. This would also be magical topped with whipped heavy cream or coconut cream. Cheers!
